

Memorandum of Understanding (MoU) Signed Between Faculty of Pharmaceutical Sciences, The ICFAI University, Himachal Pradesh and Moon Hospital, Baddi

The Faculty of Pharmaceutical Sciences is pleased to announce the signing of a significant Memorandum of Understanding (MoU) with Moon Hospital on 17th September 2025. This strategic collaboration marks a major milestone in strengthening the bond between academia and the healthcare industry. The MoU is designed to enrich the academic experience of pharmacy students by providing them with opportunities for hands-on training and exposure to real-time hospital practices. Through this partnership, students will be able to bridge the gap between classroom learning and practical application. They will gain insights into day-to-day hospital operations, enhancing their clinical knowledge, technical skills, and decision-making abilities. This experiential learning is expected to build their confidence and prepare them for professional excellence. A key highlight of this collaboration is its focus on **career development and placement support**. Moon Hospital will actively participate in campus recruitment drives, offering eligible students opportunities to work in various hospital departments. This initiative is anticipated to improve students' employability and inspire them to strive for academic and professional success. In addition to training and career prospects, the MoU also emphasizes **health and wellness support** for students and faculty members. The partnership will facilitate periodic medical check-ups, health awareness sessions, and ensure access to emergency medical care whenever needed. This MoU is a forward-looking step towards creating a **holistic learning ecosystem** – one that integrates academic knowledge, professional training, career opportunities, and healthcare support, ultimately contributing to the all-round growth and development of students. We express our heartfelt gratitude to **Hon'ble Vice Chancellor, Prof. Keshav Sharma** for his constant encouragement and guidance. A special thanks to **Dr. Manisha Bhagat from Moon Hospital** for joining hands with us and becoming a valued part of the ICFAI family.
