

Industrial Visit Report

Faculty of Management Studies, ICFAI University, Baddi, Himachal Pradesh

Visit to: Vardhman Textiles Ltd., Baddi

Programmes: B. Com, B.B.A, B.B.A. (Logistics)

The students of the Faculty of Management Studies, ICFAI University, Baddi, today i.e. Dec 5, 2025, visited **Vardhman Textiles Ltd., Baddi** as part of their industrial exposure initiative. The visit aimed to provide students with a practical understanding of industrial operations and strengthen their learning beyond the classroom.

During the visit, students explored various operational units of the textile plant, including **Processing / Dyeing, Weaving, Quality, Warehouse, and other functional departments**. They observed how raw materials are transformed into finished textile products and learned about the use of advanced machinery, modern weaving technologies, and efficient warehousing practices. This hands-on exposure helped students understand the workflow, production processes, quality control systems, and the integrated functioning of a large-scale textile manufacturing unit.

The industrial visit proved to be highly **fruitful and enriching**, offering students valuable insights into real-world business operations, supply chain processes, and industrial management practices. It significantly enhanced their practical knowledge and complemented their academic curriculum.

We extend our sincere gratitude to **Mr. Satish** and **Mr. Karanveer Singh** from Vardhman Textiles for their detailed explanations and for familiarising students with various machines, tools, and operational processes. We also thank **Ms. Ruhi (HR)** for facilitating this wonderful learning opportunity and coordinating the visit smoothly.

Overall, the visit successfully bridged the gap between theory and practice, contributing meaningfully to the students' professional development.
